

"Without Dr. Lin's expertise and the vNOTES procedure, I don't know what would have happened to me. I am so grateful to him and his staff for everything they have done for me." - Dana Means

As someone who has been a patient before at Coffeyville Regional Medical Center (CRMC), I can say with confidence that Dr. Perry Lin and his staff are truly amazing. I recently had a procedure called vNOTES (vaginal natural orifice transluminal endoscopic surgery) performed by Dr. Lin, and it was an incredible experience.

Here is my story: In 2020, I underwent an ablation procedure. However, about a year later, I started experiencing small pains that gradually became more frequent and unbearable. I wasn't getting the answers I needed from my previous doctor, so I went to my primary doctor in Coffeyville, who referred me to Dr. Lin. Within a week, I had an appointment with him. He performed an ultrasound and explained my options: either live with the pain, or have a hysterectomy. He also told me about the vNOTES procedure, which I had never heard of before.

To be honest, I was a bit hesitant about the procedure, but Dr. Lin and his staff explained everything to me in great detail. The procedure itself was amazing - I had no incisions in my stomach, and my recovery time was incredibly fast. Within a week, I was feeling great. Now, 12 weeks later, I have no pain and feel amazing. What's more, when Dr. Lin brought me out of surgery, he told me that I had been very sick. I had an infection in my uterus called Post-fire Ablation syndrome. Without Dr. Lin's expertise and the vNOTES procedure, I don't know what would have happened to me. I am so grateful to him and his staff for everything they have done for me.

I would recommend Dr. Lin and his staff to anyone who is experiencing gynecological issues. Not only is he incredibly skilled and knowledgeable, but his bedside manner is amazing. He gave me his full, undivided attention and answered all of my questions, never making me feel rushed or like I was just another patient.

I truly believe that Dr. Lin and his staff at CRMC are the best in the business. If you're looking for someone who will give you the care and attention you deserve, look no further than Dr. Perry Lin. Thank you, Dr. Lin, for everything you have done for me!

Dr. Perry Lin is "the first" and only surgeon in the region to offer vNotes. A new minimally invasive option for hysterectomy procedures that has shown to provide no visible scarring.
