

"Their occ med services have exceeded expectations"
-Steve McCall

John Deere has been a business partner with CRMC's Business & Industry Health for many years – offering a variety of occupational medicine services, such as employment testing, workers compensation, and wellness activities. "Lindsay Howerton and the entire staff at CRMC Business & Industry Health have provided our business with exceptional customer service," said Steve McCall, Safety Director at John Deere Power Systems. "Patient care and follow-through, Health Fairs, dietician consultations, after hours responses and specialist referrals have exceeded our expectations."

Improving the health and well-being of your employees isn't just a great thing to do - it's a smart thing to do. Healthier employees reduce healthcare costs, increase productivity, and improve employee retention rates. Business and Industry Health services include:

- **Workers' Compensation Services** - ergonomic job site evaluations, physical therapy, return-to-work physicals and OPC testing.
- **Physicals/Drug Screening** - annual physicals, return-to-work physicals, breath alcohol and drug screening includes DOT/non-DOT, DISA, hair follicle testing.
- **Workplace Wellness Services** - annual wellness screenings, provider consults, pre-employment physicals, OPC (Occupational Physical Capacity) testing, respirator fit testing, educational programs.
- **Contract Nurses** - Coordinate the health and safety of workers in an industry. They address the health promotion, health protection and healthcare needs of employees.

Partner with the **Business and Industry Health** team at CRMC to start enjoying a healthing company. For more information, by calling **620-252-2277** and ask to speak to Business & Industry.
