

Take it from Carolyn...

CRMC is in tune with your health needs.

Carolyn Foote's roots run deep in the Coffeyville healthcare community. For more than 30 years, she worked as a medical records coordinator. As a volunteer, she served patients, visitors and staff as a member of the Coffeyville Regional Medical Center Auxiliary. Most recently, she advocated for nursing home residents.

Carolyn has spent her entire career and her retirement looking out for the health care needs of others. In the last couple of years, she has needed some help of her own. That's when she turned to Coffeyville Medical Center.

Coffeyville Regional Medical Center is thankful to Carolyn for her years of service to Coffeyville, and her willingness to share her CRMC experiences.

Carolyn knows she can count on Coffeyville Regional Medical Center. You can, too! Join Carolyn on the journey to better health at CRMC!

Last year I had thyroid surgery with Dr. McGuirk. She is an excellent person and surgeon. She covers every detail and is so caring and compassionate.

More recently, I made a trip to the CRMC emergency room. What really "sparkled" from the whole experience was the efficiency of the emergency room staff. Turns out that my allergies had developed into pneumonia. After my ER visit, I stayed at CRMC for five days. The nurses were top-notch, compassionate and completely dedicated to my care.

The CRMC board of directors and administration have set high standards and the staff is reaching up to meet those goals. They are definitely succeeding. I'm also excited about the new physicians coming later this year and the grant CRMC has received to help build a new clinic building across the street from the hospital.

I would absolutely recommend CRMC and its doctors to others.
