

**"If someone were to ask me my thoughts about Dr. Menon and CRMC – I would say GO! Dr. Menon is absolutely wonderful." - Linda Eads**

My first knee replacement was in May of 2021. My husband and I lived in Ponca City and at that time Dr. Sunil Menon had a practice there. I was having trouble walking and had a great deal of pain in my hips. I went to see Dr. Menon. He told me that both of my hips were in bad shape and both would need replacement surgery – so he asked "which one first?". I needed to get it done, so I replied "my left one first."

I received a letter in the mail the following March that stated Dr. Menon was leaving Ponca City – and I was very upset. I knew I had to have replacement surgery on the other hip, so I had my daughter search for him. That's when we found out he was now located at Coffeyville Regional Medical Center. That's where I was going to go!

My experience was very nice throughout the whole process. When I got the Dr. Menon's office, I actually met the lady that I had been talking to on the phone who made all the arrangements. She came in and visited with me – it was nice to meet everyone – they made me feel special.

Dr. Menon is so thorough and very particular about instructions pre-surgery, and I followed them. Everything went quite well and I am doing great.

If someone were to ask me my thoughts about Dr. Menon and CRMC – I would say GO! Dr. Menon is absolutely wonderful. And if I have any other orthopedic surgery needs, he'll be the one I go to.

I had a great experience. Everyone at CRMC made me feel special. Thank you!

**K. Sunil Menon, MD  
Orthopedic Surgeon**

Coffeyville Regional Medical Center offers **orthopedic services** to maintain and restore active, healthy lifestyles. Offering a spectrum of services from physical therapy to surgery and rehabilitation, our skilled physicians and therapists want to reduce pain and improve mobility.
